

## Secvest Wireless Motion Detector

Art.-Nr. FUBW50000

---

- 
- Passive indoor infrared detector
  - Detects heat motion
  - 90° angle of view, ideal for installation in corners
  - Cable-free installation
  - Detection range 15 m
- 

### **Reliable detection using passive infrared light (PIR)**

The Secvest wireless motion detector is a passive infrared motion detector (PIR motion detector). It detects the movement of individuals within the detection range by means of their moving body heat, reporting unauthorised access to the alarm panel.

### **Detector features**

The angle of view of the wireless motion detector is 90°, and its detection range – depending on installation height – is up to 15 metres. It is also equipped for detection within a creep zone, which prevents persons from avoiding detection by crawling underneath the detector.

## Secvest Wireless Motion Detector

Art.-Nr. FUBW50000

### Technical Data

Battery type	3.6 V DC, lithium AA battery
Certifications	INCERT, VSÖ, F&P, NCP
Creep zone	Yes
DC voltage supply	3.6V
Detection range of detector (m)	15m
Environmental class	I
Height	81mm
Housing material	ABS
Length	47mm
Max. battery life	2year(s)
Max. humidity	85%
Max. operating temperature	55°C
Max. sending range (building)	30m
Max. sending range (outdoors)	100m
Min. operating temperature	-10°C

Modulation	FM
Net weight	0.14kg
Radio frequency	868,6625MHz
Security level	2
Sensor type	PIR
Status display	Yes
Tamper monitoring	Yes
Transmission power	10
Type of detection	Heat detection
Voltage monitoring	Yes
White light filter	true
Width	73mm
