

MANUAL INSTRUCTION FOR LEARN REMOTE CONTROL OPTIMUSS TERES UNIVERSAL

Your set-top-box remote control, with 5 learning-function keys and 1 “SET” key in the “TV panel” , is capable of learning the functions from your original TV remote control. Each of the 5 learning keys can learn any key of your original TV remote control. We recommend you to program the keys as Power, TV / AV, VOL+, VOL -, OK. The other 42 keys are for the control of the set-top-box.

Set up for learning function

- Press [SET] key in the TV keypad panel area continuously for 2 Sec. until the LED lights up and keep lighting, then release the key. This means the remote control is in the learning mode.
- Within 10 seconds, press the key which needs to learn, for example the [Power] key (please bear in mind that only 5 keys : Power, TV/AV, VOL+, VOL-,OK are capable of learning) , then the red LED is flashing; It means this button is ready to receive the learning signal.
- Aim the emission port of the original TV remote control at the front at the emission port at the front of your set-top box remote control (distance between these two ports has to be about 2~3 CM).
- Then press the key which is to be learned in your original TV remote control, for example the [Power] key of your original TV remote control continuously for 3 seconds. If the red LED flashes quickly for three times and keep lighting, it means the set-top box remote control has succeeded in receiving the signal and you have completed the learning procedure of [Power] key.
- Then release the [Power] key of your original TV remote control.

If the copying procedure fails , the red LED will blink quickly for three times and keep on lighting. Press [SET] key again to enter the learning mode and repeat steps 1 to 3.

- Repeat the above procedure to complete the learning-function of the other 4 keys (TV/AV, VOL+, VOL-,OK,).Once you finished with the copying procedure of the 4 keys, press the “SET” key to save the present setting and exit the learning mode.
- Now you can operate your TV with the 5 keys of your set-top box remote control as Power, TV/AV, VOL+, VOL-,OK which have been copied successfully with the above mentioned steps. During the operation, the LED will flash to indicate that the signal is transmitted.

REMARKS

1. If no signals are sent in 10 seconds, the device will exit the learning mode automatically.
2. Please bear in mind that only 5 keys: Power, TV/AV, VOL+, VOL-,OK carry out the copying procedure. After the successful learning, the 5 keys are used to control your TV set and the rest 42 keys are for controlling your set-top-box.
3. In the process of learning, if the new remote control is keep sending signals, the red led will flash three times and keep lighting, in this case, the remote control is ready for the learning of the next key. If no signals are sent in 10 seconds, the remote control will exit the learning status and the red LED will also turn off automatically.
4. The 5 learning keys are capable of learning signals sent from remote controls of different TV brands.
5. Please bear in mind that most TV could be learned, but not all. If you have any question, please do not hesitate to contact the shop that you purchased it from.
