

Antenna DAT HD BOSS 790

REF. 149901 AND 149902

DAT HD BOSS 790

WITH INTELLIGENT PROTECTION

The safest protection

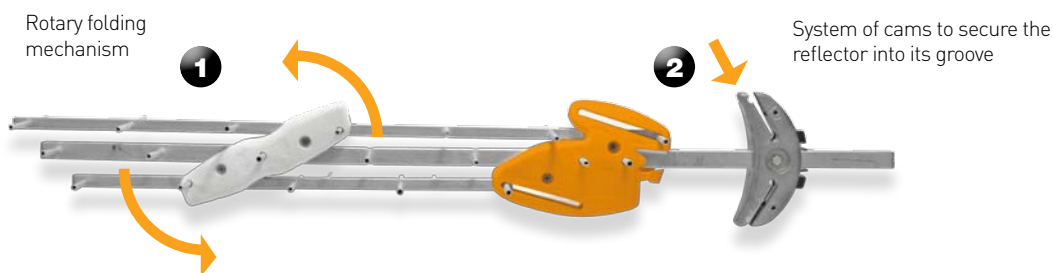

The new DAT HD BOSS 790 is designed to optimize the rejection to the LTE/4G band, keeping the rest of its characteristics in the TV UHF reception band.

Furthermore, these antennas are provided in multiple packaging and feature a folding mechanism of their structure as well as a cam system to secure their reflectors thus making easier their transportation, storage and installation.

REF	DESCRIPTION	CODE EAN 13
149901	DAT HD BOSS 790 (single pack)	8424450160930
149902	DAT HD BOSS 790 (multiple pack 6 u.)	8424450162637

		SPECIFICATIONS	
Antenna working mode		Passive	Active
Working band	MHz	470 ... 790 (Channels 21 to 60)	
Max. gain	dB	15	32 max
Noise figure	dB	-	1,2
Output level working mode		-	Automatic
Output level	dBμV	>75	<75
Powering voltage	V	0	12 ... 24
Max. consumption	mA	0	40
Beamwidth	°	30	
Wind load	N	120 (130 Km/h)	
		165 (150 Km/h)	

NEW MOUNTING SYSTEM (ref.149902)

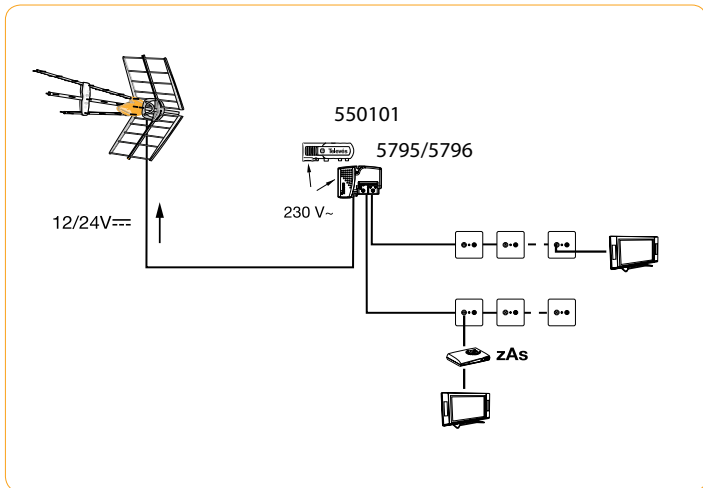

50% more antennas in the same pallet.

DAT HD BOSS 790

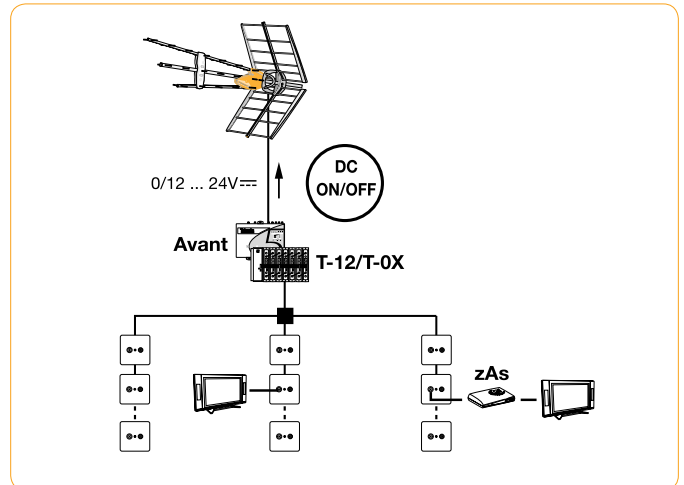

The smart antenna ready for LTE/4G

EXAMPLES OF APPLICATION

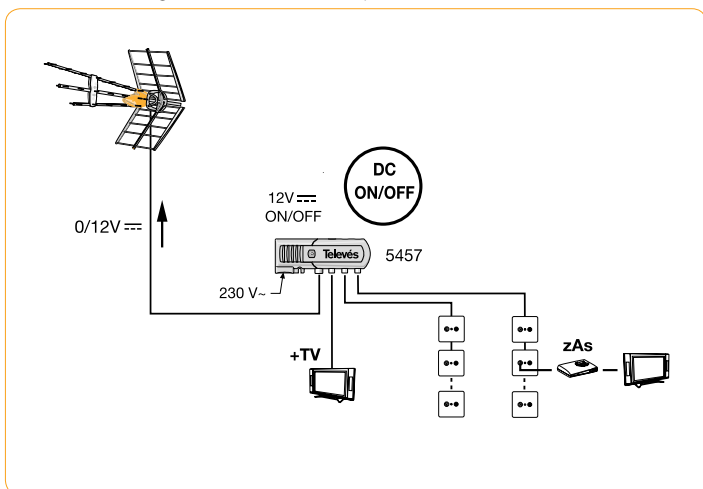

Activating BOSS via PSUs

Activating BOSS via headend systems

Activating BOSS via domestic amplifiers

Activating BOSS via mast amplifiers
