

Tube Camera Module with 2.8 mm Lens

Art. no. IPCS10001

Page 1 of 2

- HD 720p resolution: 1280 x 720
- 2.8 mm miniature lens
- Angle of view: 92°
- 8 m cable length
- Ideal for discreet video surveillance
- Includes a compatible bracket

The tube-shaped camera module is a required accessory for the Dual Flex Encoder IPCS10020. The mini module measures just 50 x 26 mm and has an 8 m cable for connection to the encoder, which runs from the back of the device. With an angle of view of 92.5°, the 2.8 mm lens gives a good overview of entire rooms.

Discreet surveillance using a mounted arm

The tiny camera module, which is not much bigger than a cigarette lighter, is ideal for inconspicuous surveillance. It is attached to the wall or ceiling using the enclosed mounting arm. This means that it can be mounted in a variety of positions, such as behind a counter or hanging from a ceiling profile.

Disclaimer:

The legal situation with regard to hidden surveillance may vary considerably from country to country or from region to region. Please check the applicable provisions in your installation location before installing the product.

Technical Data:

Dimensions	26x50 mm
Image sensor	1/3" Progressive Scan CMOS Sensor
Pixels (effective)	1280x960 pixel
Pixels (total)	1280x960 pixel
Focal length	2,8 mm
Gross weight	0,63 kg
Diameter	26 mm
Horizontal angle of view	92 °
Compatible with	IPCS10020
Length	141 mm

Max. resolution @ frame rate	1280 x 720 @ 25 fps
Max. operating temperature	50 °C
Min. operating temperature	-10 °C
Minimum illumination (color)	1
Minimum illumination (B/W)	1
Net weight	0,29 kg
IP protection class	24
Day/night switching	ICR/colour/B/W
Certifications	CE, RoHS, REACH
